

Contents

1 Introduction	1
Pasi Tyrväinen and Mirja Pulkkinen	

Part I: Evolving Software Markets

2 Vertical Software Industries	11
Pasi Tyrväinen	

3 Theories Related to Vertical Software Industry Evolution	17
Lauri Frank	

4 Model for Evolution of a Vertical Software Industry	25
Pasi Tyrväinen	

5 Overview of Telecom Operator Software Market	35
Eetu Luoma, Lauri Frank, and Mirja Pulkkinen	

Part II: Current State of the Telecom Software Market

6 Process Improvement Through Software	47
Olli Martikainen	

7 Effect of Software on CSP Performance	51
Oleksiy Mazhelis, Pasi Tyrväinen, and Kimmo Suojapelto	

8 Insights from Operator Interviews	55
Mirja Pulkkinen and Jari Veijalainen	

9 Analyzing the Current Phase of the OSS/BSS Software Market	67
Lauri Frank, Pasi Tyrväinen, and Eetu Luoma	

Part III: Issues Affecting Telecom Software Market Evolution

10 Vertical Integration due to Software Systems' Modularity	93
Oleksiy Mazhelis and Pasi Tyrväinen	
11 Vertical Integration due to Small Market Size and High Product Development and Integration Costs	97
Oleksiy Mazhelis and Pasi Tyrväinen	
12 Market Polarization due to Difference in Interface Implementation Efforts	103
Oleksiy Mazhelis and Pasi Tyrväinen	
13 Barriers to Horizontal Development	109
Olli Martikainen	

Part IV: Future Scenarios for the Teleoperator Software Market and their Evaluation

14 Delphi Study	117
Lauri Frank	
15 Manager's Toolbox for OSS/BSS Market Analysis	125
Pasi Tyrväinen	
16 Developing Toolboxes	133
Pasi Tyrväinen	

Part V: Evolution of Telecom Operator Software Industry – Conclusions and Future

17 Evolution of Telecom Operator Software Industry: Conclusions and Future	139
Pasi Tyrväinen
